

**Build your school
schedule around
your life.
Not the other way
around.**

HOW IT WORKS

Self-Paced Courses

Courses are pre-loaded and **accessible to students at any time**, which allows the flexibility to learn according to your schedule. IVLA students are required to meet attendance standards by logging in regularly and meeting minimum progress requirements. Each student's attendance is **monitored by both our teachers and Success Coaches**. Our programs have pacing guides that helps students remain on track and finish on time!

Student Athlete Support

- **NCAA-approved** core courses
- Honors, AP, GATE, and college prep course options
- Transcript support
- Experienced advisors who understand the goals of student athletes
- Dedicated Success Coach to track NCAA eligibility and overall academic success

Flexible Schooling For Athletes

IVLA provides a flexible, accredited U.S. homeschool option that allows students to complete schoolwork around their training schedule. Whether on the court, at the resort, or traveling, students can complete the same coursework as their peers who attend brick-and-mortar schools.

Study from Anywhere

- While not on the courts, RF Elites students can use the resort's quiet office space to study, complete with internet and a cafeteria
- During tournaments, players can use their downtime to complete lessons
- Instead of spending hours in traffic, students can focus that time on training or academics

Some of the Universities IVLA Students attended after graduation:
